Dear Hiring Manager,

I'm writing to express my interest in a Software Engineer or Associate Software Engineer position within your organization. I have recently completed my BSc (Hons) in Software Engineering with 2nd Class Upper Division from ICBT Campus and am currently working as a Junior Software Engineer at Management System Pvt Ltd. My experience has given me strong exposure to both frontend and backend development, mainly with React, ASP.NET, C#, and Oracle DB.

Throughout my career, I've contributed to several projects, including converting legacy Windows systems into modern web-based applications and developing full-stack web solutions for clients at FZ Digital (Singapore) and Koombiyo Delivery & IT. These roles have helped me improve my problem-solving, teamwork, and attention to detail while learning to adapt quickly to new technologies.

I'm deeply passionate about software engineering and always aim to build clean, reliable, and user-friendly systems. I'm confident that my technical background and dedication to quality work would allow me to make a valuable contribution to your team.

Thank you for taking the time to review my application. I'd welcome the opportunity to discuss how I can support your upcoming projects and grow with your organization.

Best regards,

K.G. Thesara Nimeshika

Junior Software Engineer | BSc (Hons) in Software Engineering (ICBT Campus)
